

**Language:**

We're featuring stories about the many different animals and bugs that are around us.

"Gilbert in the Deep"

"Animals on Strike at the Zoo"

' Old Macdonald Had a Farm"

"The Very Hungry Caterpillar"

"The Grouchy Ladybug"

We'll also be reading many other great stories about animals and bugs.

**Math:**

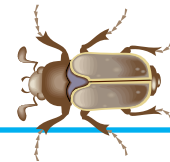

Animals

We will be comparing different types of animals and where they live, doing Swedish fish math, and doing dog bone sorting.

Bugs

We will be counting and sorting bug by size and graphing the differences we see. We will also graph our favorite bugs.

**Art:**

Animals

We will be making an underwater class picture, drawing a rainforest or jungle, dog bone prints and making a pet collage.

Bugs

We will be making egg carton spiders, ants in dirt, paint the worms, rock ladybugs, and hand butterflies.

**Science:**

Animals

We will be finding out where the animals live, and learning about the different climates they live in.

Bugs

We will be discovering what happens with caterpillars change to butterfly and catching and observing the bugs we find outside.

**Fine /Large Motor:**

Animals

We'll be playing animal charades, trying to fly like a bird, playing pick up fish, and pet shop.

Bugs

We will be doing a spider maze and hand butterflies, and painting ladybug rocks.

**Music /movement**

Animals

We will be having fun playing animal charades, an animal keeper game, and dog bone shape hop.

Bugs

We will be singing songs about bugs like The Itsy Bitsy Spider and The Ants Go Marching In, and playing team games to work together like ants do.
